

The BTF Penetrating Traumatic Brain Injury Guidelines, 2nd Edition

A course provided by Global Neuro

The first edition of the Guidelines for the Management of Penetrating Brain Injury was published in 2001. Over the subsequent 20 years, the body of published literature associated with this topic increased substantially.

The purpose of this course is to review the new evidence-based and expert consensus recommendations as well as treatment algorithms which aim to assist the care of these challenging patients.

CONTRIBUTORS :

Gregory Hawryluk
